

RESIDENTIAL COMPLEX

- NEW GOLDEN MILE -

DISCOVER A NEW STANDARD OF EXCELLENCE

Premium Development New Golden Mile

We believe home is more than just a place - it's an experience. Therefore, our mission is to create spaces for a comfortable and harmonious life, where every day will be filled with positive emotions.

The residential complex is a carefully designed gated community offering the perfect mix of privacy, exclusive amenities, natural surroundings, and proximity to beaches and golf courses.

The modern architecture of the complex combines aesthetics and a professional approach. The project is designed by renowned architectural studios such as [REDACTED]. Their accumulated experience has made it possible to create a truly stunning project that meets the clients' needs.

The complex offers 2, 3 and 4-bedroom apartments as well as penthouses. Each element has been carefully planned to meet the needs and expectations of discerning residents.

A perfection inspired by the
Mediterranean sun, warmth,
and charm — a seamless blend
of elegance, comfort, and coastal
beauty.

Every architectural element and design detail has been thoughtfully crafted to provide an unparalleled living experience, showcasing a dedication to quality in every aspect.

The residential complex is a masterpiece of design inspired by the warmth of the Mediterranean sun, the beauty of nature, and the timeless charm of Spanish architecture. Every detail reflects a perfect harmony between elegance and comfort, creating an inviting atmosphere that embodies the essence of the Costa del Sol.

The architecture seamlessly integrates with the surrounding landscape, featuring soft, earthy tones, natural materials, and open spaces that allow light to flood every corner. Spacious terraces and large windows connect the indoors with the breathtaking outdoors, offering magnificent views of the sea, mountains, and lush gardens.

GATED COMMUNITY & PREMIUM AMENITIES

The development offers exclusive living within a secure, gated community, where thoughtful planning ensures a harmonious and safe environment for all residents.

Designed for a high-end lifestyle and ultimate comfort, it provides the perfect balance of privacy, luxury, and convenience in a breathtaking setting. Residents can enjoy a range of premium amenities, including indoor and outdoor pools, a state-of-the-art fitness center & spa for well-being, lounge & co-working spaces for work and leisure. Also, the development offers concierge services for complete comfort.

Quality Specifications

EXTERIOR

The outdoor spaces have been designed to guarantee functionality, durability and aesthetics, with high-quality and energy-efficient materials.

- **Landscaped paths:** Built in reinforced decorative concrete or similar.
- **Outdoor lighting:** timed LED for energy optimisation, with low luminaires and waterproof projectors in garden areas.
- **Irrigation:** Automated and intelligent irrigation system for efficient use of water.
- **Garage ramps:** Decorative concrete pavement or similar.
- **Perimeter of the urbanization:** Complete enclosure with access doors for pedestrians and vehicles.
- **Pool flooring:** Large format non-slip ceramic tiles.
- **Lifts:** THYSSEN or SCHINDLER models, or similar, with capacity for 8 people (630 kg), adapted for people with reduced mobility.
- **Stairs and corridors:** Porcelain or granite flooring with recessed LED lighting.
- **Common areas:** Perimeter enclosure, lighting control and automatic doors for vehicular access.

BASEMENTS

The basement has been designed to maximise functionality, ensuring ease of circulation and manoeuvrability, with wide access roads and spacious garage spaces.

- **Pavement:** Continuous finish.
- **Garages:** Smoke extraction system, CO₂ detection and fire protection system. Each home has a minimum of one parking space, with the possibility of acquiring more spaces. The dimensions of the spaces vary according to their location within the car park.
- **Storage rooms:** Individual storage spaces, with lighting and power socket.
- **Doors:** Automatic overhead or sectional doors.
- **Lighting:** LED luminaires with motion sensors.

STRUCTURE & INSULATION

The structure of the building has been designed with criteria of resistance and durability, incorporating high-quality materials and advanced thermal and acoustic insulation systems.

- **Foundation:** Continuous footing or reinforced concrete slab.
- **Basement walls:** 30 cm thick reinforced concrete.
- **Covers:**
 - Not passable with a double sheet of asphalt fabric and polyurethane.
 - Walkable with large format tiles and drainage.

ENCLOSURES, PARTITIONS & FINISHES

The building has a system of enclosures and partitions that guarantee thermal and acoustic comfort, along with high-quality finishes.

- **Exterior facade:** Extra-strong water-repellent mortar, insulation with polyurethane foam and rock wool coating.
- **Interior divisions:** Between homes and rooms with high-strength sound-absorbing materials.
- **Paint:** Indoor and outdoor application in three coats for durability and a uniform finish.

EXTERIOR & INTERIOR CARPENTRY

Top quality materials are used in the exterior and interior carpentry, guaranteeing design, efficiency and functionality.

- **Exterior:** Minimalist aluminum profiles with double glazing, argon gas chamber and sun protection.
- **Interior:** Doors in MDF finish, custom built-in wardrobes in melamine with doors in matte MDF.

INTERIOR FLOORING & TERRACES

The interior and exterior pavements have been selected for their resistance and aesthetics, guaranteeing a uniform design throughout the urbanization.

- **Interior:** Large format porcelain tiles.
- **Terraces:** Non-slip ceramic tiles with floating system and water and electricity connection points.

KITCHENS

The kitchens are designed to a high standard of quality, offering state-of-the-art equipment.

- **Kitchens furnished** with contemporary design furniture.
- **Household appliances:** Miele or similar (oven, microwave, induction hob, etc.).
- **Countertops:** Porcelain.
- **Washers and dryers:** Siemens or similar.

CEILINGS & BATHROOMS

The design of the ceilings and bathrooms combines functionality and comfort, with high-quality materials and modern finishes.

- **False ceilings:** Plaster or plasterboard, painted with washable plastic paint.
- **Bathrooms:**
 - Ceramic flooring and large-format wall tiles in showers.
 - Walls with a microcement finish.
 - GEBERIT toilets or similar.
 - GESSI faucet or similar.
 - Frameless LED mirrors.

PLUMBING

The plumbing system has been designed to ensure efficiency and sustainability in water consumption.

- **System:** Central softening unit and XLPE pipes.
- **Supply:** Hot water network by means of 180-300 litre thermoaccumulators or similar.

AIR CONDITIONING AND HEATING

The air conditioning and heating system guarantees energy efficiency and comfort in each room.

- **Air conditioning:** Aerothermal system or similar, with independent regulation per room.
- **Heating:**
 - Underfloor heating in living areas.
 - Electric heating in bathrooms.
- **Optimized passive ventilation**

ENERGY EFFICIENCY

The building incorporates high-performance energy solutions to reduce consumption and optimise thermal comfort.

- **Insulation:** Double insulation on facades and roofs.
- **Glazing:** Sun protection glass with argon gas chamber.
- **Doors and windows:** Aluminium profiles with thermal break.

LIGHTING AND ENERGY SAVING

The lighting has been designed to maximise energy efficiency and safety in all areas of the building.

- **Gardens and corridors:** Energy-efficient LED lighting with motion sensors.
- **Basements and garages:** Low-voltage lighting with motion detection.
- **Homes and terraces:** High energy efficiency LED lighting.
