

Achieve your best natural self

On the most serene and sought-after coastline of Estepona, **right on the beachfront** facing the Mediterranean Sea, rises an architectural concept created for those who value discretion, timeless beauty, and harmony with nature. This residential development has been designed to offer a sophisticated way of life in perfect balance with the landscape and the calm of its surroundings.

THE VISION

Over four decades ago, we began a journey in real estate development guided by a clear vision: to create exceptional residential projects spaces that reflect an ever-evolving lifestyle.

Through time, our deep understanding of the Costa del Sol, combined with rigorous management and an unwavering commitment to excellence, has allowed us to build a solid and sustainable presence in the region.

Each new development represented another step forward, always driven by a clear purpose: to deliver distinctive value through location, design, innovation, and sustainability. In this way, we have built a shared success story with our clients and partners.

Today, all this experience leads us to a strategic and exceptional project: [The Solana](#). Located on a genuine beachfront site, it embodies the essence of our expertise and vision, supported by a first-class team and focused on a development model that integrates wellbeing, healthy living, sport, integrity, and long-term perspective.

THE PROJECT

Set on a plot of 33,346 m², the project unfolds organically, beginning with six exclusive beachfront villas, followed by an elegant central plaza that embraces communal areas such as the outdoor swimming pool, gym, and spa, all surrounded by beautifully landscaped gardens.

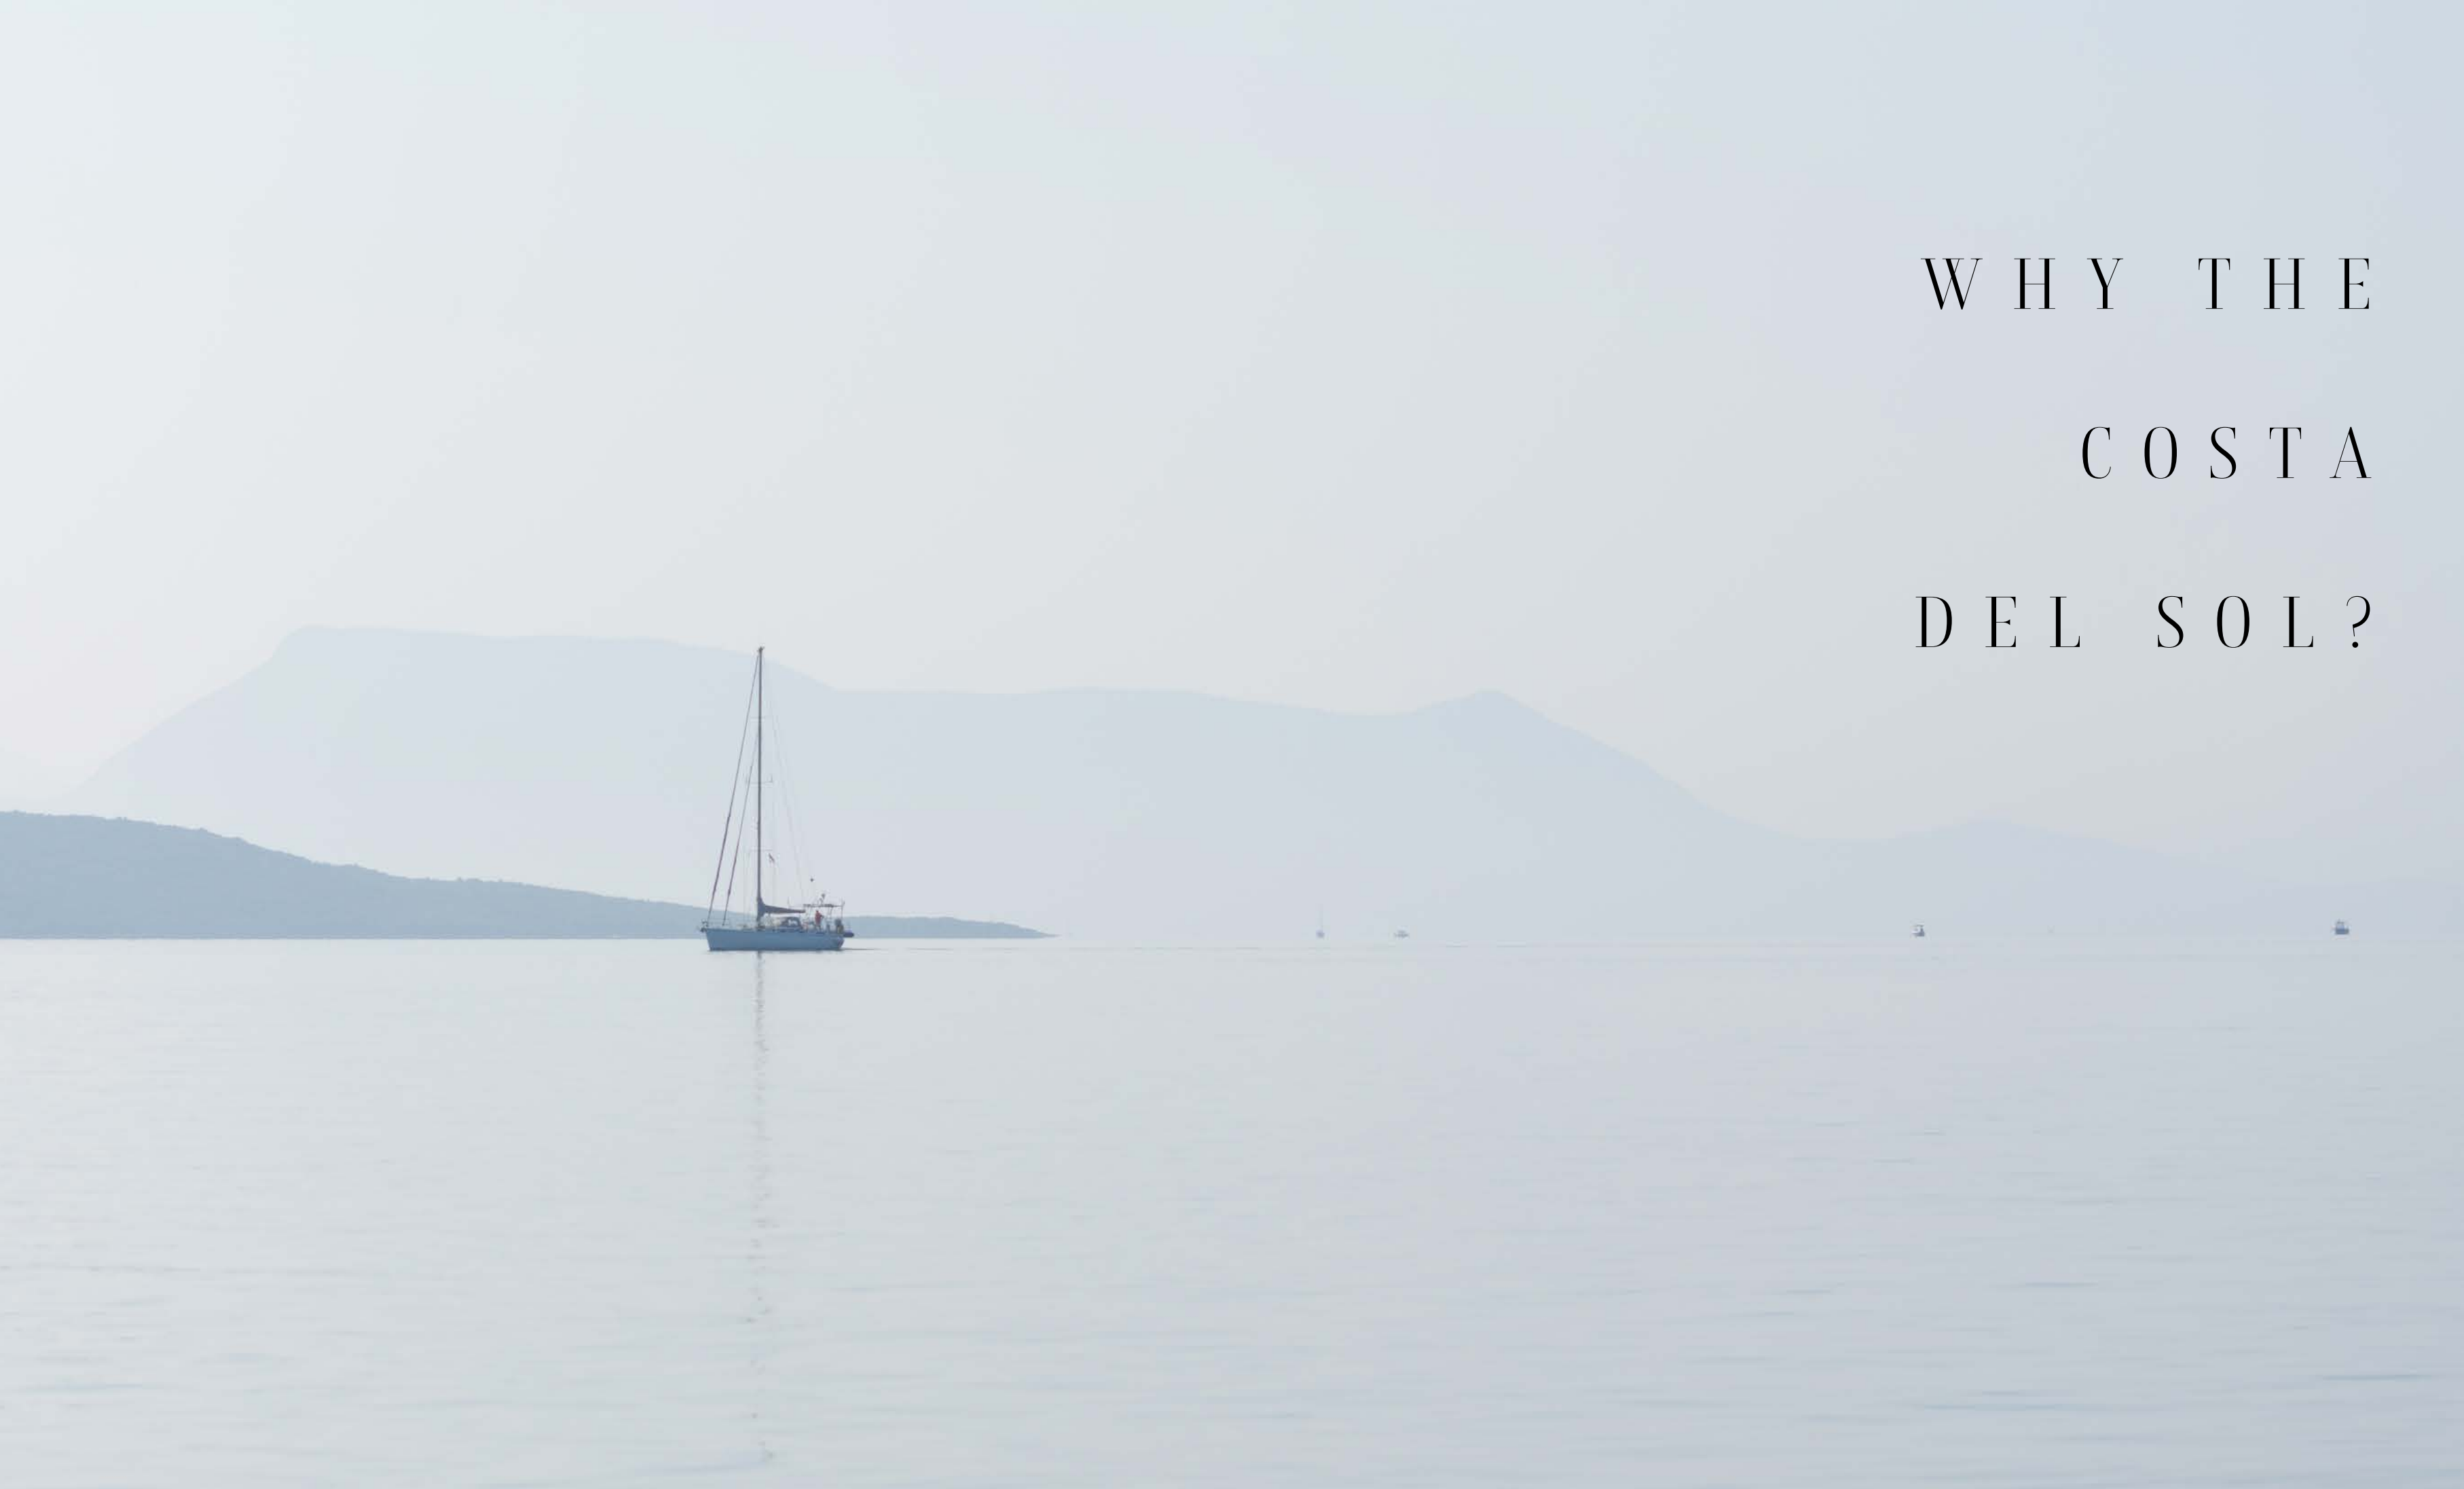

At the rear, five three-storey buildings with 42 apartments and penthouses complete the ensemble, each oriented to maximise sea views and integrate seamlessly with nature. A balanced composition that elevates the natural beauty of its setting.

The development will also feature a paddle court and a children's play area. Vehicular circulation is entirely underground to preserve the tranquillity of the surroundings.

There are countless reasons

Privileged climate, more than 300 days of sunshine per year and mild temperatures throughout all seasons create the perfect environment for wellbeing and outdoor living.

A growing destination. A continually rising area for the high-end property market, with increasing international demand and strong investment prospects.

A sophisticated lifestyle. A unique combination of sea, golf, fine dining, art, and culture, surrounded by premium services and a cosmopolitan community.

Excellent international connections. Nearby airports, modern infrastructure, and easy access to key European destinations make it ideal for extended stays or frequent travel.

Safe and stable environment. A region offering high levels of safety, quality of life, and world-class medical services perfect both as a main residence or a second home.

ESTEPONA, COSMOPOLITAN.

Estepona is that well-kept secret many have already discovered, yet it still knows how to preserve its soul. Cosmopolitan and welcoming, it captivates with an old town bursting with flowers, intimate squares, and hidden corners that invite you to get lost.

Its marina balances seafaring charm with sophistication, offering a culinary scene that blends flavours from around the world with a distinctly Andalusian touch. Water sports find their perfect stage here, amid warm waters and clear blue skies.

Just a stone's throw away lie some of the finest golf courses in the world, home to renowned international tournaments.

Just a breath away from Málaga and Gibraltar well connected, yet always true to its own rhythm. In Estepona, it feels as though time moves in its own, gentler way.

PLAYA DEL ÁNGEL, ESTEPONA. ART AND THE SEA.

Next to [Santiago Sculpture Park](#), Playa del Ángel hides a corner where art and the sea come together. Among the salty breeze and the palm trees, the Santiago Sculpture Park rises like an open-air museum discreet yet deeply moving. The bronze figures seem to gaze at the horizon with you, where the Mediterranean stretches endlessly and the light sketches almost magical silhouettes.

Just nearby, the Senda Litoral winds gently along the coast, inviting you to stroll unhurriedly as if the entire landscape wanted to whisper its story softly, just for you.

MARBELLA.

A paradigm of exclusive Mediterranean living.

Its sophisticated coastline exists in perfect balance, attracting an international audience in search of sunshine, privacy, and world-class services.

In Puerto Banús, the most prestigious brands share space with high-end cars and yachts arriving from every corner of the world. The gastronomic scene is extensive and refined from Michelin-starred restaurants to beach clubs like Nikki Beach or Ocean Club, where fine cuisine and a vibrant atmosphere blend seamlessly with views of the sea.

Five-star hotels and resorts such as Marbella Club or Puente Romano have established the city as a benchmark for luxury tourism. Marbella boasts one of the highest concentrations of golf courses in Europe, making it a key destination for lovers of the sport. Marbella needs no introduction those who know it, always return.

THE RESIDENCES

*The place to live
a truly unique
experience*

The soul of [The Residence](#) lies in an architecture that blends seamlessly with the landscape designed to enhance wellbeing and foster a deep connection with its privileged surroundings.

At [The Residence](#), architecture reveals itself. Facing the Mediterranean, on the very edge of the shoreline, light shapes the spaces and the views flow naturally into every corner, creating an experience that resonates with the calm of its setting.

Stone, wood, and noble textures converse with gardens of native flora, striking a delicate balance between form and essence. A haven for those who cherish time, beauty, and the quiet harmony shared with others who think and live with the same sensibility.

THE APARTMENTS

A refuge for the soul

At the heart of the complex, five buildings rise discreetly above a landscape of gardens, positioned high enough to guarantee sea views, security, and privacy. Each apartment is a true refuge for the soul: infinite vistas, complete privacy — even on the ground floors in relation to the communal areas — and a direct connection to the surrounding environment.

The apartments offer three types of homes, ranging from two to five bedrooms:

- Two Duplex Ground Floor residences
- Middle Floor
- Duplex Penthouse
- Prime Duplex Penthouse

The homes reveal a sense of space and fluidity, where light flows without barriers, kitchens blend in naturally, and every finish speaks of precision and attention to detail.

The terraces are sublime, open-air living rooms that invite you to enjoy the Costa del Sol's climate as if summer never truly ended.

Light
the true
architect of space

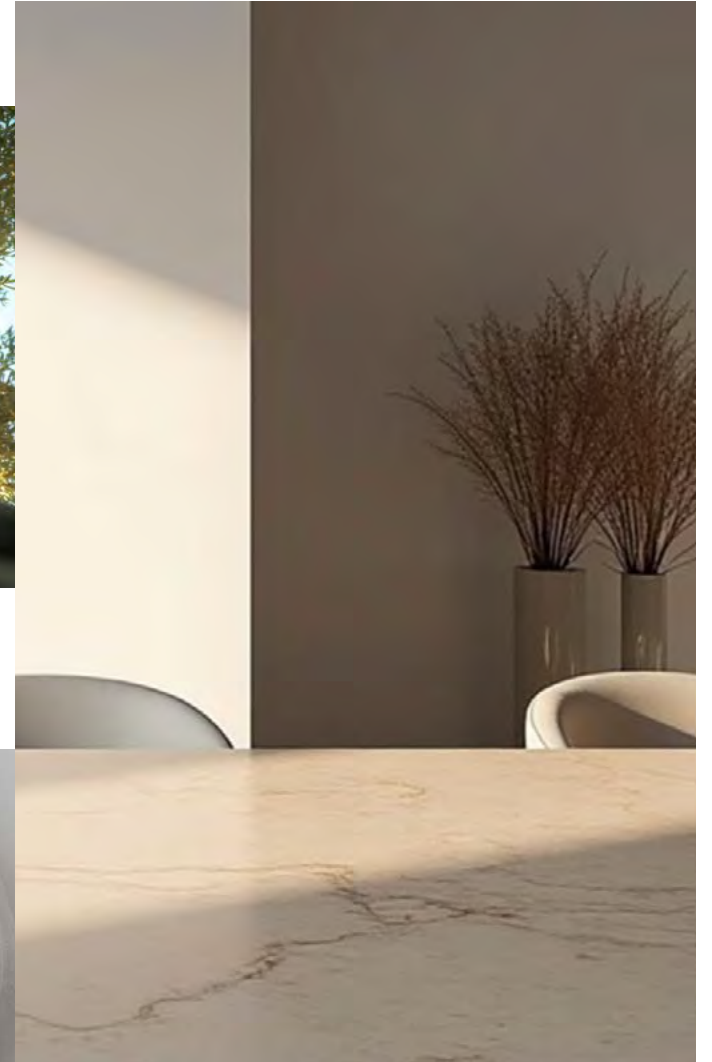

Open-plan living rooms, surrounded by views, encourage connection among residents. Their seamless, functional layout fosters interaction, creating a shared experience within an open and harmonious environment.

The views take centre stage, integrating the landscape as an essential part of everyday life. This constant connection with the natural surroundings reinforces the idea that nature is a living presence an integral part of our private space.

THE VILLAS

Exclusivity on the beachfront

At the very front of the development stand six seafront villas. Two layouts, each spread across three floors, create their own distinct ecosystem.

Outdoor spaces are designed for private living, with finishes that speak the language of exclusivity.

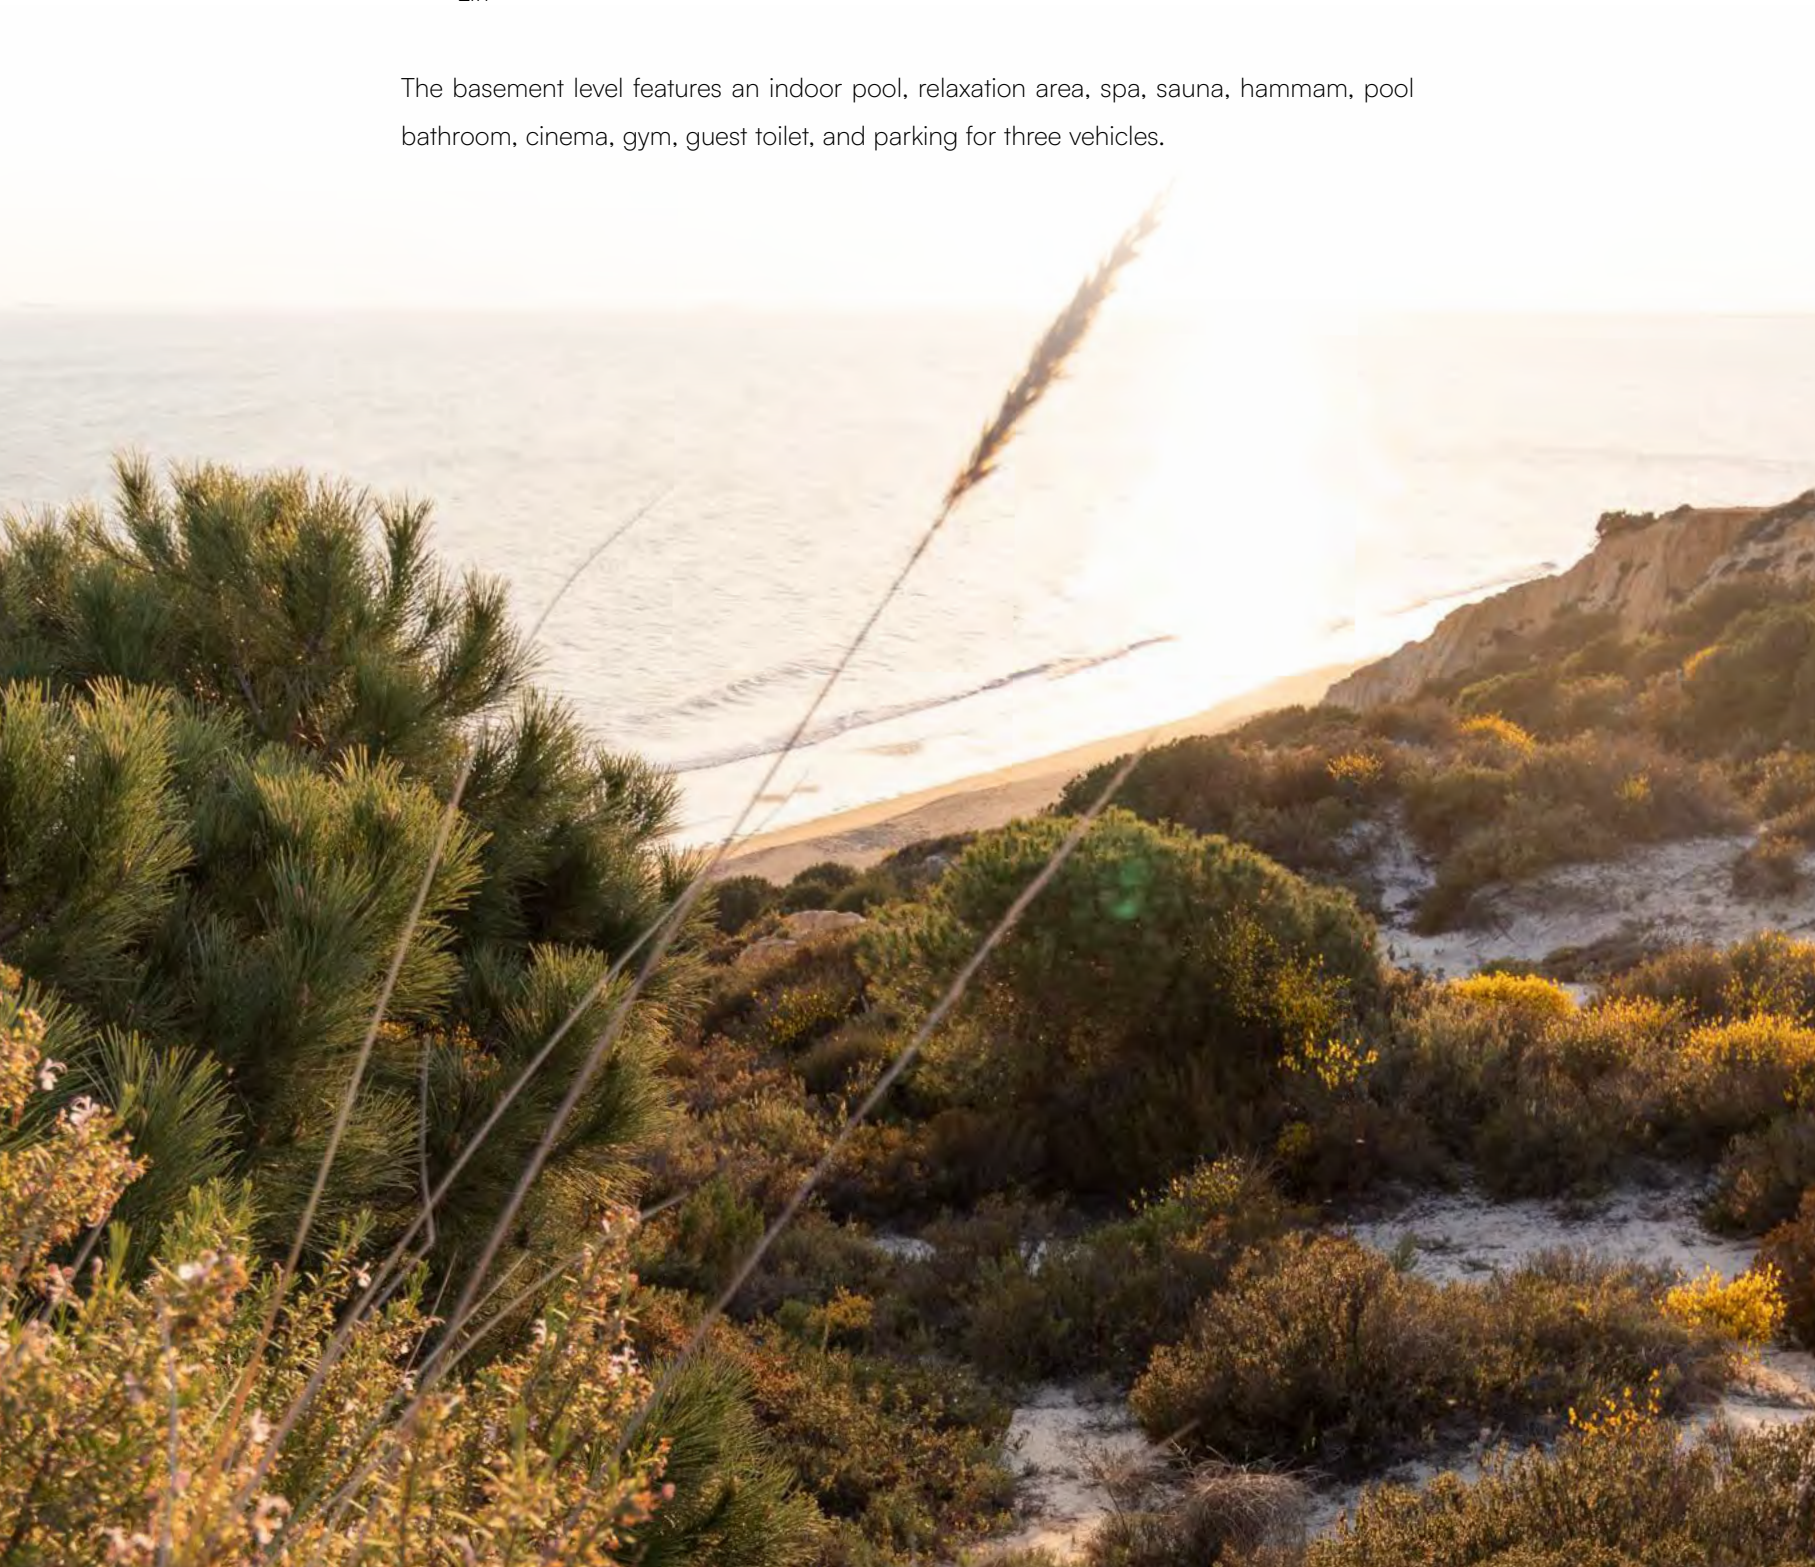

- Private swimming pool
- Garden
- Spacious basements

The landscaped rooftops soften their presence, extending the natural scenery respecting it, blending with it, and becoming part of it.

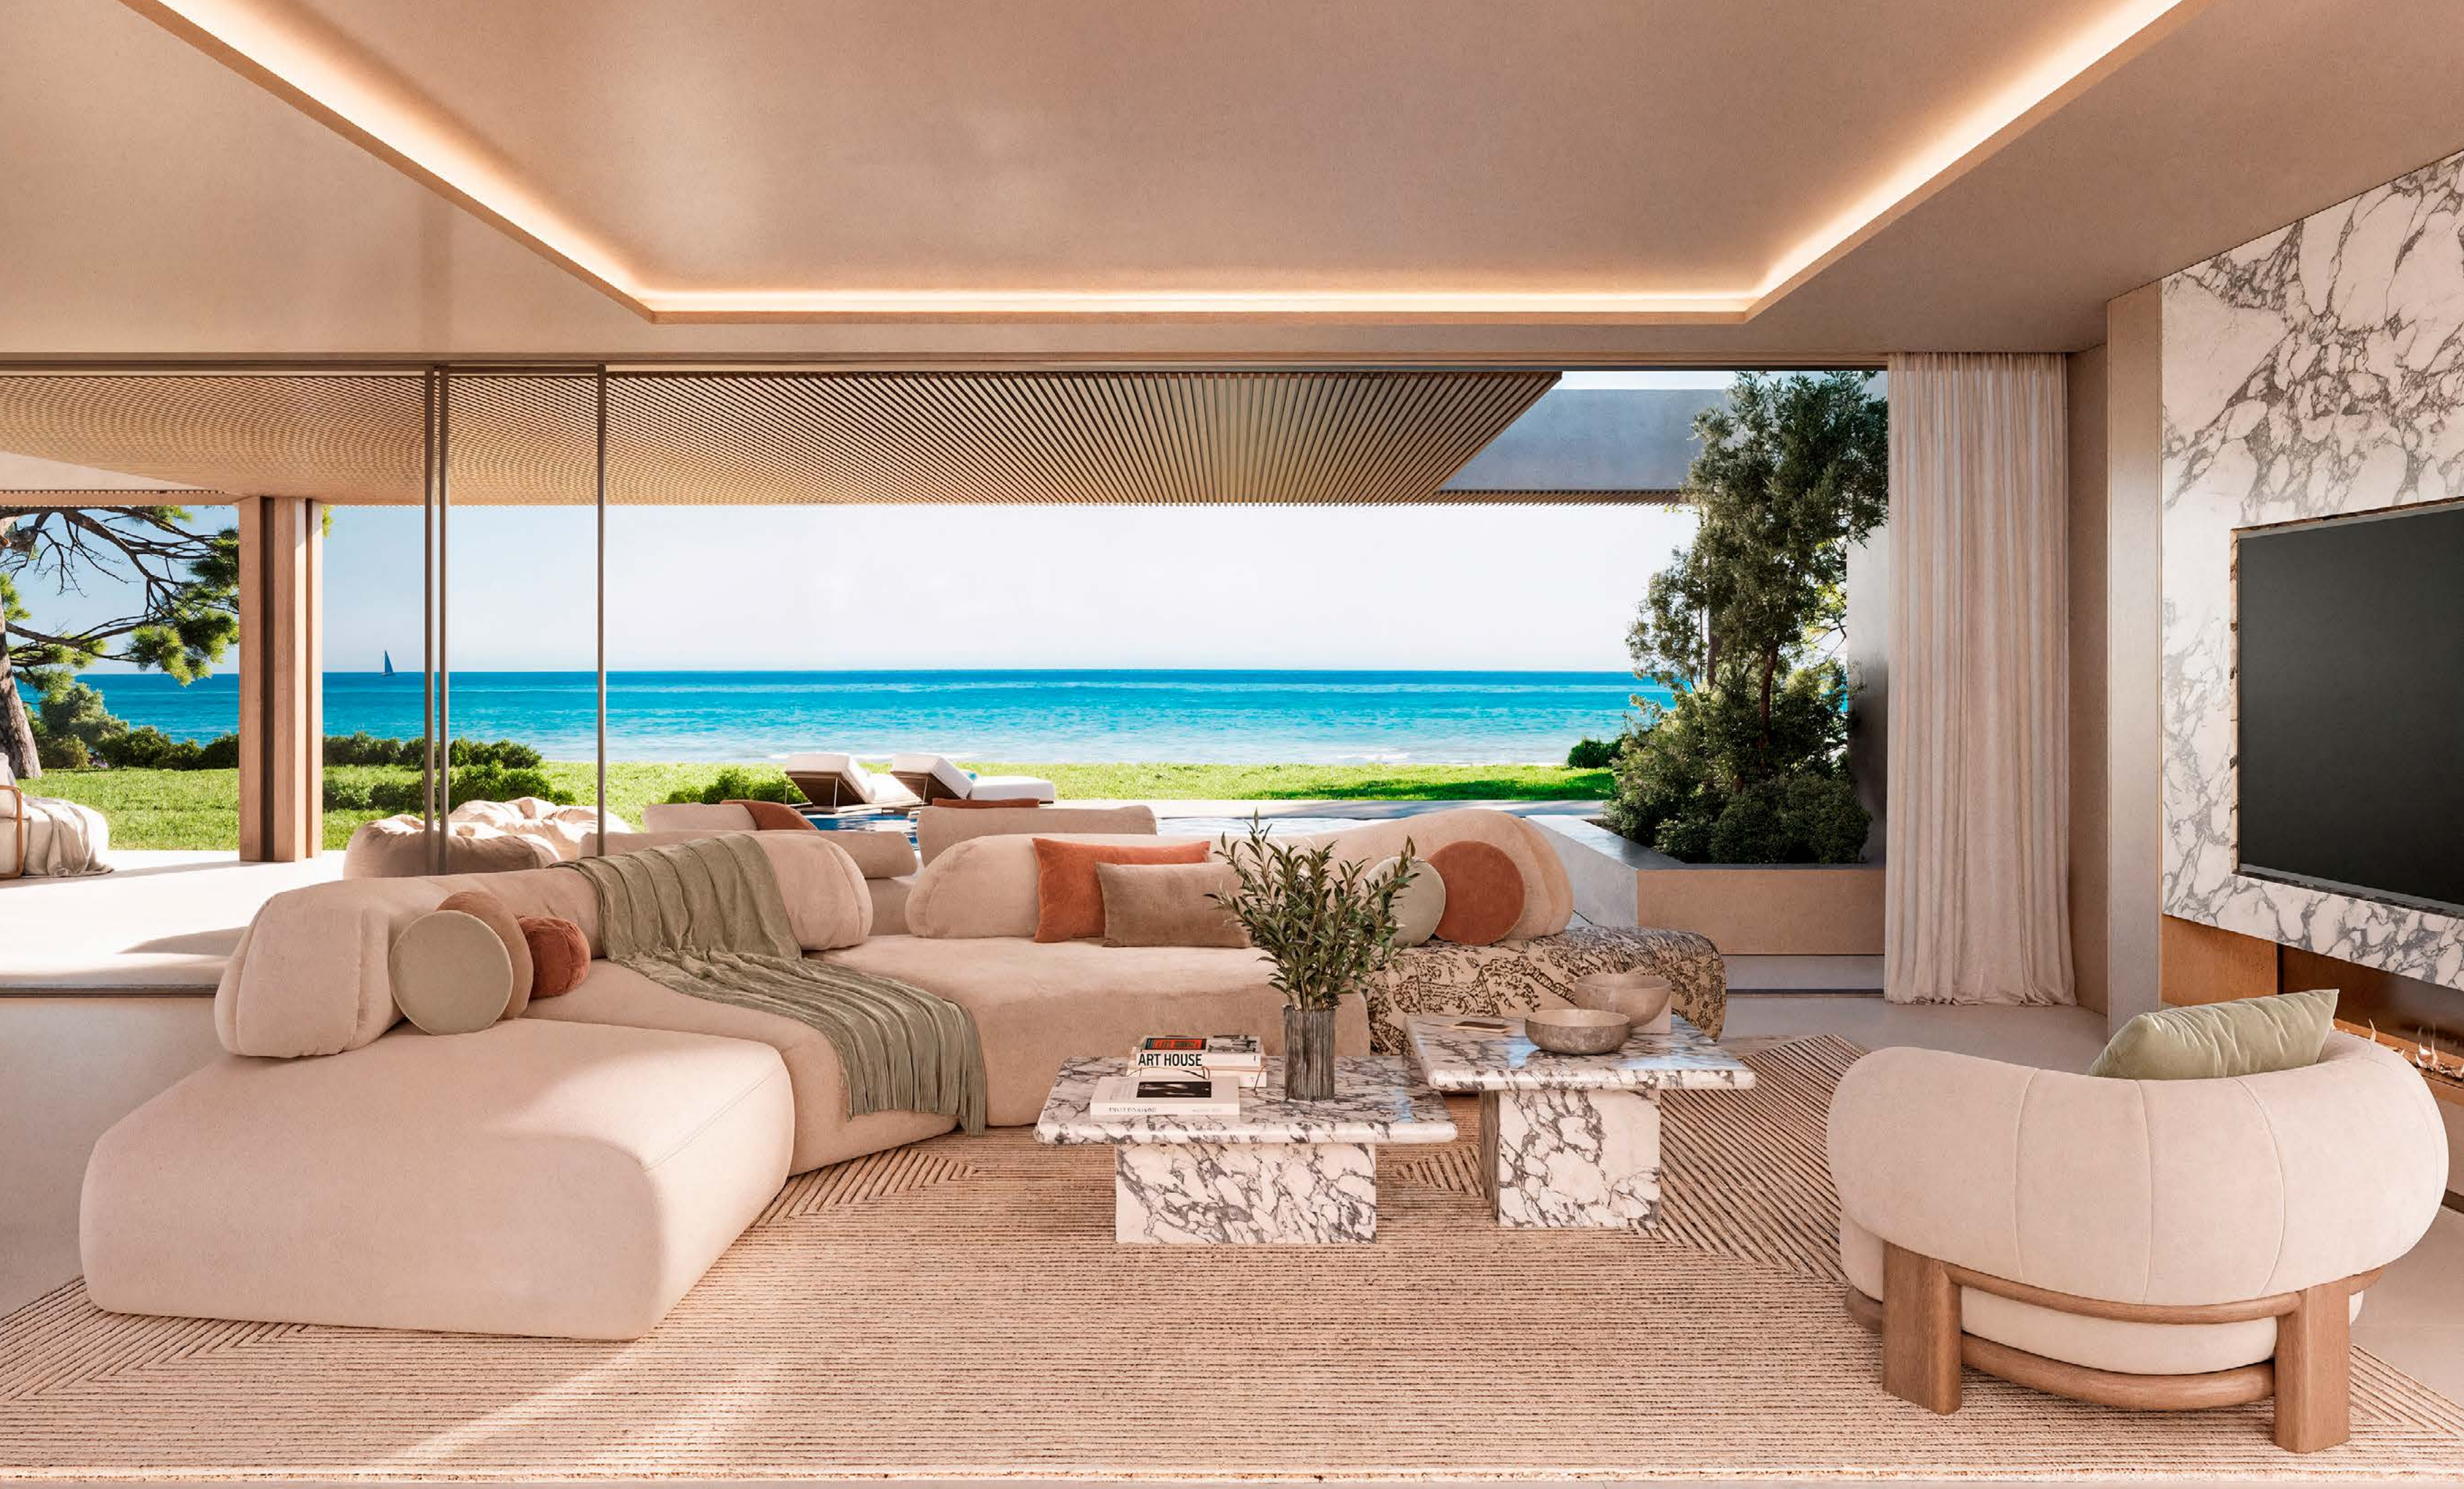

The architecture is expressed through transparency, shifting light, and softly moving shadows that glide with grace, creating interiors where calm is found, spaces that breathe elegance.

- Open-plan living room opening onto the garden
- En-suite bedrooms
- Lift

The basement level features an indoor pool, relaxation area, spa, sauna, hammam, pool bathroom, cinema, gym, guest toilet, and parking for three vehicles.

On the ground floor, the spaces open outwards: the living room, dining area, and kitchen flow onto a large terrace, the private garden, and the pool. Several suites with their own bathrooms depending on the layout together with a guest toilet, complete this warm and functional level.

On the upper floor, privacy takes centre stage, featuring an intimate lounge and an elegant master suite with a terrace and sea views.

The villas at [REDACTED] are arranged across three levels connected by a lift, optimising space, functionality, and views. Their location is truly exceptional: genuine beachfront on Estepona's New Golden Mile. Expansive glazed openings connect the interiors with the landscape, particularly in the double-height living room, transforming it into a breathtaking setting for everyday life.

The lower level is a true haven of wellbeing: an indoor pool, spa with sauna and hammam, gym, cinema room, massage area, and everything needed for personal care. In addition, each villa features a private garage and direct access to the community spa, combining independence with first-class services.

THE CONNECTING
THREAD

*The perfect
setting
to share
experiences*

Around the grand central plaza of the project lie the communal spaces, conceived as the social heart of the development:

- Outdoor swimming pool for adults
- Children's pool
- Spa with heated pool
- Paddle court
- Rest areas
- Fully equipped gym

Facing the sea, residents will find here the perfect setting to share experiences and make the most of every moment in an atmosphere of serenity and connection.

The seaside gardens feature two swimming pools surrounded by relaxation areas seamlessly integrated into the greenery. This natural setting invites you to enjoy the sun and the open air, accompanied by the gentle, continuous sound of the sea, creating a sensory experience of calm and a deep connection with nature.

*Stay
Healthy
and in shape*

A spa where natural light takes centre stage. A large skylight above the pool allows the sunlight to dance across the water, creating reflections that fill the space with an intimate atmosphere. Around it, relaxation areas, a sauna, jacuzzi, and Turkish bath blend harmoniously with the surrounding greenery, inviting rest and self-connection in an environment designed for complete wellbeing.

*A spa where
natural light
takes the lead*

The spa is a space designed for deep relaxation and personal care, connected to the gardens and villas through private access points.

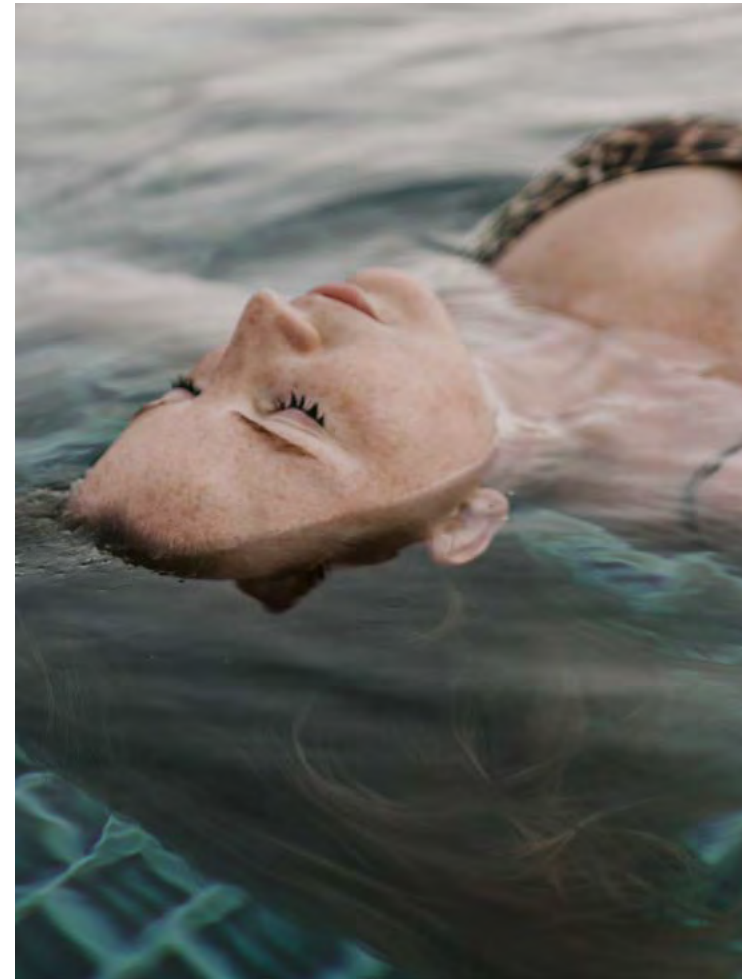

Upon entering, an elegant hall welcomes you with views of the gym and the indoor pool, creating an atmosphere of calm from the very first moment. On one side are the reception area, changing rooms, and massage rooms; on the other, a hyperbaric chamber.

The **155 m²** pool, surrounded by relaxation zones, sauna, hammam, and showers, becomes the heart of wellbeing.

A complete sensory experience in a serene, functional environment where body and mind come back into harmony.

A fully equipped gym featuring cutting-edge technology, where innovation merges with nature. Its garden views create a balanced atmosphere that inspires wellbeing, energy, and a sense of calm in every workout.

A WAY OF LIFE

*designed for
wellbeing
and family*

Estepona was born from a clear vision: to create a residential environment where wellbeing and an active lifestyle coexist in perfect harmony with the Mediterranean Sea. A place designed to embrace the balance between body, mind, and nature.

Wellness is woven into every detail: from relaxation and spa areas to spaces dedicated to personal care, crafted so that each day becomes an experience of serenity and vitality.

Sport plays a central role, with facilities that encourage an active lifestyle, promoting energy, health, and personal growth.

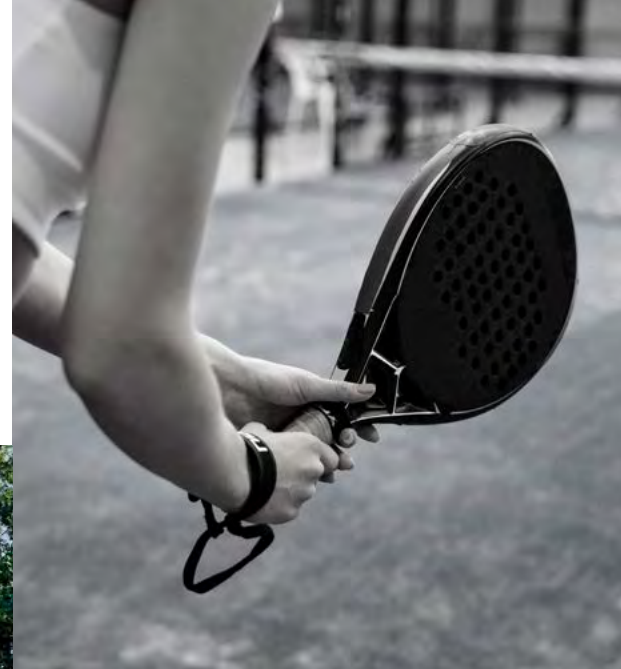

The project is also kids friendly, offering safe spaces and activities designed for the youngest members of the family, allowing parents and children to share unforgettable moments in an environment created especially for them.

With a strong family focus, Estepona by the Sea is much more than a collection of residences: it is a setting where different generations can live, grow, and enjoy together a unique way of life by the sea.

*Health and
friendship
in every stroke*

At [The Palm Jumeirah Golf Course](#), padel is played in a truly privileged setting. Our state-of-the-art court is designed to offer precise, fluid gameplay at any time of day.

An experience that blends sport, wellbeing, and connection with friends. Rest areas, social spaces, and an exclusive atmosphere make our facilities the perfect place to train, compete, and share unforgettable moments.

NATURAL ENVIRONMENT

Refining tradition

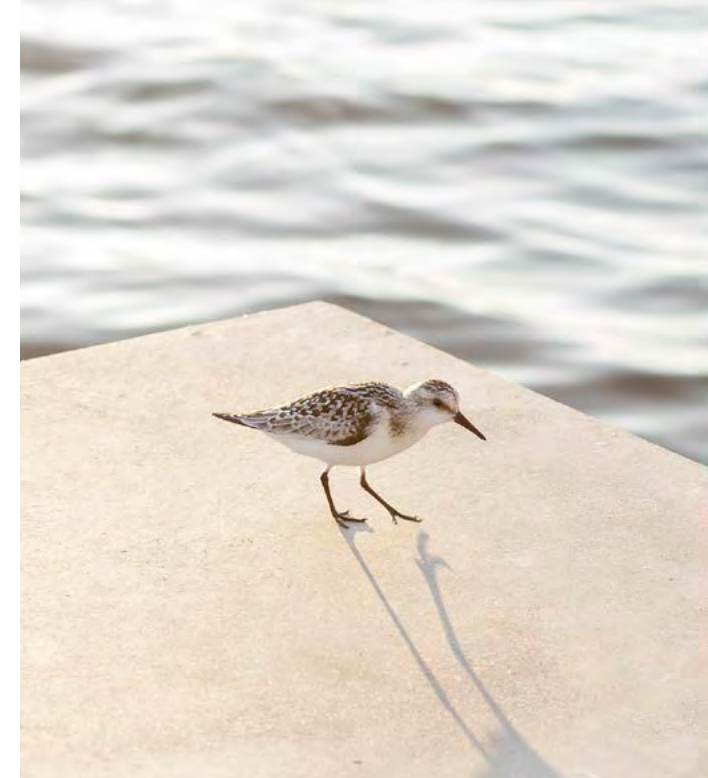

Inspired by local savoir-faire,  celebrates a lifestyle where Mediterranean light defines the spaces and time seems to flow with natural elegance.

A love for authenticity - the handmade, the lasting, the meticulously crafted - connects the architecture to tradition and to a way of life that is sustainable, serene, and deeply rooted in its surroundings. A tribute to the beauty of simplicity, of craftsmanship, of all that endures.

SUSTAINABLE HOMES

At [Santitas](#), sustainability is the foundation guiding every decision in the project. From low-impact construction to advanced energy efficiency solutions, everything has been conceived to live in harmony with the natural environment.

The bioclimatic design, aimed at optimising light, ventilation, and thermal comfort, is combined with mindful landscaping that respects the identity of the place, integrating architecture into the landscape in an organic and tranquil way.

The result is a home that behaves like a living organism: efficient, adaptable, and in tune with its surroundings. An architecture that not only meets the needs of the present but also anticipates a future that is more respectful, healthy, and connected with nature.

*our
surrounding
landscape*

At the landscape design draws inspiration from the quiet whispers of the natural environment. The design follows its forms and rhythms, using native species that understand the climate, preserve water, and enrich the surroundings.

The vegetation embraces and integrates every built space, softening the architectural lines, enhancing nearby views, and creating a sense of natural privacy. A living, mindful, and balanced environment.
